## JOHNNY LUCAS

**Hi Johnny, please tell our readers about yourself...**

"I write and perform fresh, anthemic songs which keep you singing through the dark times as well as the bright!"

With influences ranging from 60s McCartney to 90s Northern Brit Pop, Johnny's easy-to-relate-to, feel-good music will always leave you in a sunnier mood. Using multiple loop pedals and several different guitars, he entertains audiences completely solo while sounding like a full band. By including the audience in his performances he befriends the crowds he plays to.

**What has been your biggest highlight so far this year?**

I received air play on BBC Radio 1 in March, because they aired one of my university tour shows.

**How do you feel about being invited to perform at Hobble on the Cobbles this year?**

It's an honour to play at HOTC as it's 'Buckinghamshire's largest all day free music-festival' and I'm excited to meet the friendly HOTC crowd :)

**Is there anything you would like to share with our readers?**

I have a gig coming up with Jools Holland and an autumn release which will be toured around Sept/Oct/Nov time.

**What has been the most embarrassing live moment so far in your career?**

**Is there anything you can tell us?**

I sometimes play guitar solos behind my head, and on one occasion I did this and I was flying low.

**Is there ANYTHING else you would like to add?**

Jimmy Page came to one of my shows in Dec 2013, and said it was like watching a 5D experience.
