Without Reason

Hi Guys, so please tell us about your band...

Well, we are Without Reason, we come from the Beds, Bucks area and are made up of Louise (Vocals), James (Guitarist, Backing Vocals), Ashley (Bass) and Luke (Drums). We have been performing for a few years together, gigging furiously in and around the South East and slowly growing an army of fans who never fail to show their support and love. We have recently released a single called '*Weakest Defence*' for which we are extremely proud of and are pushing to raise our awareness in the music industry. We are currently signed to NUB records who are helping us to raise our profile and gain significance in the music industry, to date this is working well.

Can you name a few influences on your music/style?

Our influences are rock/grunge and include, Foo Fighters, Nirvana, Pearl Jam and Alice in Chains.

How do you feel about being invited to perform at Hobble on the Cobbles this year?

We first heard about HOBTC after our drummer spoke of it, being an Aylesbury boy he showed a particular love and admiration for the festival, so we listened, persevered and then were delighted when we were asked to play. We have been building our Aylesbury fan base for over six months now and are so excited at the opportunity of performing to them at this festival.

What other bands are you following at the moment?

We are good friends with '*Callow Saints*', we show our love and support for them whenever we can and they supported us at our single launch on 30th May. Other bands we are loving are '*Detail In Devil*', a Brighton based five-piece who rock hard and '*Erica*', a fantastic melody driven three-piece we recently supported in London.

Any embarrassing live moments you can tell us..?

Embarrassing moments, okay, well there was a gig in Birmingham, we were in the semi-finals of a huge national competition and I decided to add presence on the stage, I would jump and land on the drop of one of our songs. I jumped so high I smashed my head on an air-con unit and fell to the floor dramatically and a lot less gracefully than I had planned, I carried on like nothing happened. .!
